

The Bookplate Journal
First Series Volumes 1 to 20
1983-2002

INDEX OF NAMES

I – P

(See general note at the head of the A – D index)

The volume number appears in bold face and the pagination in ordinary type. An asterisk (*) Indicates that the bookplate by or for the said individual or institution is illustrated.

N.B. In Volumes 17, 19 and 20, the pagination starts again at 1 in No.2 (September); for these volumes pages in No. 1 are indicated by **17**, **19** and **20**, and in No.2 by **17(2)**, **19(2)** and **20(2)**.

In Volume **20**, page 63, Portrait of a Bookplate is wrongly numbered 32 (should be 33).

Volume **17(2)** consists entirely of an index to the Viner Collection arranged by artists, with an alphabetical index of about 1000 owners on pp.45-64. The list of owners is not duplicated here, but the 170 artists' names are included.

John Millburn's note refers to vols. **17 – 20** only: Unidentified monograms are indexed by the last initial, on the assumption that it represents the surname. [This practice was not followed in the previous four indexes and needs to be corrected. PRL] Monograms and anonymous plates which are identified in the text are indexed under the relevant surname.

Peers are indexed by title and by family surname if this is mentioned in the text, [Again, this was not necessarily done in the previous indexes where peers are listed in several different ways. PRL]

fc = front cover (outside); rc = rear cover (inside)
